

Timo Järventausta

Valkeala, Southern Finland

About

I am a 19-year-old full-stack developer and technology enthusiast from Finland. I have experience with a wide variety of programming languages and technologies and I'm always eager to learn new things as well.

Apart from programming and technology, my hobbies include going to the gym and occasional photography. I'm the kind of person who gets stuff done and doesn't give up easily.

I have worked as an entrepreneur, building websites and applications for various clients. In the future I will be studying Industrial Engineering and Management (tuotantotalous) in the Tampere University of Technology.

Experience & Projects

Software Developer Trainee @ Elisa Oyj

5.6.2017 - 28.7.2017

I worked in Elisa's Software Services unit as a part of the Self-Optimizing Network team. My job consisted of both frontend and backend tasks utilizing DevOps and agile practices.

Soittotunnille.com

Spring of 2017

I designed and built a web application for finding local instrument teachers as a client project. The site is built using Node.js and MongoDB in the backend and Semantic UI as the frontend framework.

Social Media Lectures

2016 - 2017

I have given lectures on social media for various organizations, including University of Helsinki and MLL.

Intern @ Nixu Oyj

20.6.2016 - 29.7.2016

I did plugin development and code review as well as other infosec related tasks.

Intern @ Nixu Oyj

1.6.2015 - 17.7.2015

I did penetration testing and other infosec related tasks.
